

# FoamForce™

## Antifoaming/Defoaming Agent

FoamForce is a highly effective silicone emulsion for use in most spray application equipment to eliminate foam.

### PRINCIPAL FUNCTIONING AGENTS:

Dimethylpolysiloxane ..... 7.7%  
Dimethylsiloxane polymer ..... 2.3%

**CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANT** ..... 90.0%

**TOTAL** ..... 100.00%

All ingredients are exempt from the requirements of a tolerance in 40 CFR 180.

## KEEP OUT OF REACH OF CHILDREN WARNING

Causes eye irritation.

### PRECAUTIONARY STATEMENTS

Wash hands thoroughly after handling.

### FIRST AID

**IF IN EYES:** Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

**In case of medical emergency, call toll free 1-866-767-5042.**

## ALWAYS SHAKE WELL BEFORE USING

### DIRECTIONS FOR USE

The use of FoamForce can control foaming of spray mixtures. The reduction of foam can decrease mixing and filling times and reduce material loss caused by foaming over of spray tanks. It can reduce risks of unwanted and unsightly vegetation kills or contamination caused by foaming over.

For foam reduction when mixing spray solutions, add FoamForce at the rate of 1 ounce per 100 gallons of solution. Water hardness, temperature and spray tank mixture may call for more or less. Adjust the rate until the desired control is achieved. Add FoamForce to the partly water-filled tank first and agitate well before adding other products to the spray solution.

If foaming should occur after spray mixture is in tank, FoamForce can be applied directly to the surface for fast foam knockdown.

**Approved for Aquatic Use with Pesticides Labeled for Aquatic Use.**

### STORAGE & DISPOSAL

Store above 40° F. Do not freeze. Store in original container only. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. Contact your state and local ACRC recycler or visit the ACRC web page at [www.acrecycle.org](http://www.acrecycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.
