

MYSTIC[®] SPI GREEN

SPRAY PATTERN INDICATOR

KEEP OUT OF REACH OF CHILDREN

CAUTION/PRECAUTION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

PRECAUTIONARY STATEMENTS

Store in cool, dry areas away from children, feed and food products and sources of heat. Immediately clean up spills that occur during handling and storage. Protect from freezing for store at a temperature below 122° Fahrenheit (50° C). Keep containers closed when not in use.

FIRST AID

Do not take internally. In case of eye contact, flush with large amounts of water and consult a physician. In case of ingestion, dilute with water or milk and consult a physician. Most hand stains or clothing stains may be easily removed with soap and water.

STORAGE AND DISPOSAL

Do not reuse this container. Rinse contents into the spray tank and dispose of or recycle bottle. This product is not intended for use on edible food crops. Do not apply to food or feed crops, or grain after harvest.

GENERAL INFORMATION

Mystic SPI Green is a dye designed to be used in sprayers to indicate where product has been applied. This formula is specifically designed to dissipate after the user is done spraying so that others are not able to see the spray.

USE RATES

Area to be Applied	Rate per 100 Gals of Solution
Gravel, bare ground, parking lots, stations, pumping stations, driveways or pole yards	6 – 12 oz
Roadside ditch banks, highway rights-of-way, fence lines, or county weed control use.	10 – 16 oz
Sod, lawns, parks, schools, cemeteries, landscaping industrial, or general edging use	12- 16 oz
Utility rights-of-way, power or pipeline corridors, brush forestry or railroad use	16 – 32 oz

For Turf Use

The rate charts give the applicator an estimated range of Mystic SPI rates to apply per acre. Generally 8-16 ounces per acre or 1/4 to 3/4 ounce per 1,000 square feet are recommended. The listed rates also account for turf color.

MYSTIC® SPI GREEN

SPRAY PATTERN INDICATOR

RATE PER ACRE ON TURF:

Target Area	Dormant	Active
Greens	8 oz.	12 – 16 oz
Fairways and Lawns	12 oz.	16 – 20 oz
Roughs	16 oz.	20 – 24 oz

For Industrial and Forestry Use

Mystic SPI is a temporary colorant used for marking spray applications. By adding Mystic SPI to the spray solution, spray applicators can accurately and uniformly apply pesticides and liquid fertilizers. Mystic SPI is compatible with most chemical compounds. Mystic SPI is economical, environmentally safe, and is easily removed from application equipment. The chart below provides the applicator with an estimated range of Mystic SPI rates to add to each 100 gal- lons of spray solution. Experiment with the volume of spray solution and rate of Mystic SPI added to each 100 gallons to establish an economical and effective rate. Use the higher rate for the darkest and most easily visible spray pattern.

For Hand Held Sprayers

Tank Size	Suggested Rate
1 gallon	¼ - ½ oz
3 gallons	¾ - 1 ½ oz
5 gallons	1 ¼ - 2 ½ oz

NOTICE OF WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
