

Mystic[®] WSP Lake Dyes

Mystic WSP Dyes transform the pale, dirty or off-color water, into a natural-appearing healthy blue or black color. Mystic Lake Dyes may be used to provide blue or black color for ornamental lakes, ponds, fountains, water hazards and other contained water bodies.

The Mystic WSP Blue can be used as a Spray Pattern Indicator as well. Toss 1 WSP into the spray tank while filling up to allow for the color to agitate into the solution.
