

Droplex[®] Xtra

Droplex[®] Xtra is a powerful combination of Doplex[®] adjuvant to reduce small droplets and Gulfstream[®] surfactant technology to enhance droplet spreading. Conveniently packaged in a premix, Droplex[®] Xtra significantly increases the number of droplets reaching the target and coverage of droplets, leading to more pesticide on the target, which can enable better performance. Droplex[®] Xtra labeled for use with herbicides, insecticides, fungicides, and nutrients to improve coverage and uptake.

APPLICATION RATE:

16 to 32 fluid ounces per acre

INGREDIENTS:

95% Modified Vegetable Oil, Alkyl Phenol Ethoxylate Vegetable Oil
5% Constituents Ineffective as Spray Adjuvant

ORNAMENTAL

AQUATICS
(not in WA)

FEATURES & BENEFITS

- Significantly increases the number of droplets reaching the target, by reducing small droplets
- Provides greater control by enhancing droplet coverage on the target
- Can potentially lower pesticide or fertilizer use rates, due to very effective application
- Packaged in a convenient pre-mix to minimize mixing time and ensure the proper balance of ingredients
