

Jetshield®

Jetshield® adjuvant is an OMRI Certified organosilicone surfactant that promotes fast spreading on the leaf surface. This spreading will allow for uniform coverage, and absorption of pesticides and nutrients into the plant. JetShield® is labeled for use in turf, ornamental, industrial vegetation, aquatics, and alternative crop sites. JetShield® has demonstrated increased spread and faster dry time compared with similar industry products, as well as less foam build up, even with extreme agitation.

APPLICATION RATE:

6 to 32 ounces per 100 gallons

INGREDIENTS:

99% Polyether and polyether- polymethylsiloxane- copolymer

1% Constituents ineffective as spray adjuvant

AQUATICS

ORNAMENTAL

LAWN
CARE

GOLF
MANAGEMENT

FEATURES & BENEFITS

- Helps reduce surface tension so droplets spread out over a larger area, up to 4x spread vs water alone
- Decreases foaming even after agitation
- Helps promote increased pesticide and nutrient absorption and efficacy
