

# Gravity® 12-00-00 5FE Liquid Fertilizer

Gravity® L 12-00-00-5FE Liquid Fertilizer is formulated with our patented MAX-IN® technology, which assists in the absorption and movement of nutrients in the plant. University studies show that this advanced formulation drives more nutrients into plants for immediate availability and maximum plant health benefits.

#### APPLICATION RATE:

X to X fluid ounces  
per 0,000 square feet

#### INGREDIENTS:

0% Lorem Ipsum  
0% Lorem Ipsum  
0% Lorem Ipsum

## FEATURES & BENEFITS

- Multiple formulations to meet individual needs
- Proven performance of enhanced nutrient uptake compared to competitors
- Easy mixability with other nutrients and pesticides

## GREATER TISSUE NITROGEN THAN MORGREEN

Average tissue nitrogen content was highest in turfgrass treated with Gravity®. Plants treated with Gravity® had higher tissue nitrogen content compared to MorGreen and urea.

Steve MacDonald, Turfgrass Disease Solutions, 2013
