Artimuss®

Latest generation fall fescue varieties. Varieties are chosen for top performance. Artimuss® is the highest performance on brown patch and gray leaf spot disease based on patented Turf Tech Tool algorithms analyzing NTEP data. This turf seed has excellent drought tolerance-based on NTEP data. It is also excellent quality under traffic stress and under shade. Always zero crop and zero weed, always certified seed, always treated with our own Gravity® SL PGS.

FEATURES & BENEFITS

- Higher quality turfgrass with fewer inputs required like fungicides
- Fewer damaged areas that need reseeded
- Fine texture and outstanding dark color
- Less water/ irrigation required
- Less shredding of leaf blades causing tip burn
- Higher quality turfgrass especially in heat and high temperature stress
- Fewer problems and easier to maintain
