## 7. HANDLING AND STORAGE

### 7.1 Precautions for safe handling

Handle with care.  
Wear personal protective equipment.  
Use only in well-ventilated areas.  
Avoid dust formation.  
Provide exhaust ventilation if dust is formed.  
Dust must be extracted directly at the point of origin.  
Avoid breathing dust.  
Avoid contact with skin, eyes and clothing.

### 7.2 Conditions for safe storage

Keep containers tightly closed in a dry, cool and well-ventilated place.  
Containers should be protected against falling down.  
Containers which are opened must be carefully resealed and kept upright to prevent leakage.  
Store away from incompatible substances.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 ACGIH-Threshold Limit Value (TLV)

Exposure limit values of the components: No specific limits have been established all ingredients in this product. As a guideline, ACGIH (United States) has established the following limits which are generally recognized for inert or nuisance dust. Particulates (insoluble) Not Otherwise Classified (PNOC): 10mg/cu.m. Inhalable Particulate 8-Hours TWA TLV, 3mg/cu.m. Respirable Particulate TWA\_TLV.

### 8.2 OSHA-Permissible Exposure Limit (PEL)

Exposure limit values of the components: No specific limits have been established for all ingredients in this product. As a guideline, OSHA (United States) has established the following limits which are generally recognized for inert or nuisance dust. Particulates Not Otherwise Regulated (PNOR): 5mg/cu.m. Respirable dust 8-Hour TWA PEL, 15mg/cu.m. Total dust 8-Hour TWA PEL.

### 8.3 Any other exposure limit used or recommended by chemical manufacturer

Non-applicable

### 8.4 Engineering Controls

Provide exhaust ventilation if dust is formed. Dust must be extracted directly at the point of origin. Apply technical measures to comply with the occupational exposure limits.

### 8.5 Personal Protective Equipment

#### Hand protection: Gloves

Gloves must be inspected prior to use. Replace when worn.

#### Eye protection: Do not wear contact lenses.

Wear as appropriate: Safety glasses with side-shields

#### Body protection: Long sleeved clothing

Respiratory protection: A NIOSH approved air purifying respirator with a type 95 (R or P) particulate filter may be used under conditions where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited (see manufacturer's respirator selection guide). Use a positive pressure air supplied respirator if there is potential for uncontrolled release, exposure levels are not known or
