

IMMUNITY PRO

What is IMMUNITY PRO?

TonicSea Immunity Pro is an all-natural immune support formula for adults, containing patented Wellmune® and FiberAid®. Wellmune® is a natural yeast beta-glucan derived from the cell wall of a highly purified, proprietary strain of baker's yeast (*Saccharomyces cerevisiae*).^{*} A large body of clinical research suggests that Wellmune® can help support your natural immune responses and provide protection from health challenges arising from physical and lifestyle stress.^{*}

FiberAid® is a patented form of larch arabinogalactan, a potent type of dietary fiber found in larch trees. Research findings suggest that larch arabinogalactan can assist immune function by promoting healthy gut microbes (which are important for immune health).^{*}

Proper immune function is crucial in adults, especially as we age into our later years. TonicSea Immunity Pro is a great way to help you get the beta-glucan and larch arabinogalactan you need for healthy immune function.^{*}

How IMMUNITY PRO Works

Wellmune® baker's yeast (*Saccharomyces cerevisiae*) has a unique polysaccharide called beta-glucan in its cell wall. Despite being a fungus, a multitude of benefits come from this strain of yeast.^{*}

After ingestion, beta-glucan is taken up by immune cells in the gastrointestinal tract and transported to immune organs and is slowly released for days thereafter. Research consistently demonstrates that beta-glucan supports both innate and adaptive immune function.^{*}

In fact, according to a pilot clinical study, older adults (50-70 years old) taking Wellmune® reported a 16%

^{*} These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

decrease in total upper respiratory tract infection (URTI) symptom days. Better yet, a 4-week clinical study demonstrated that stressed women taking Wellmune® were 62% less likely to develop URTI than those taking a placebo.*

Immunity Pro also contains FiberAid® larch arabinogalactan, which acts as a prebiotic to nourish your gut with beneficial gut microbes.* Healthy gut bacteria are imperative for healthy immune function, and research suggests that larch arabinogalactan supports immune response to health challenges.*

In vivo and human clinical trials have shown that both Wellmune® and FiberAid® support innate and adaptive immune responses by supporting healthy immune markers, beneficial gut microbes, and other immune factors.*

IMMUNITY PRO Supplementation

Research cited herein suggests that both Wellmune® and FiberAid® support natural immune response and gastrointestinal health through a variety of mechanisms.*

In summary, the most pertinent research-backed benefits of supplementation with TonicSea Immunity Pro include:

- Supports natural immune function*
- All-natural, patented ingredients*
- Acts as a prebiotic/nourishes the gut microbiome*
- Comes in veggie capsules for easy on-the-go use

IMMUNITY PRO Dosing Recommendations

Supplement Facts		
Serving Size: 1 Capsule Servings Per Container: 90		
	Amount Per Serving	%DV**
Wellmune® (Baker's Yeast Beta Glucan)	250 mg	**
FiberAid® (Larch Arabinogalactan)	85 mg	**

**Daily Value (DV) not established

Other Ingredients: Cellulose, Vegetable Stearate, Silica.

This product is GLUTEN FREE, VEGETARIAN and NON GMO.

Wellmune® is a registered trademark of Kerry Group. FiberAid® is a registered trademark of Lonza Inc.

Adults: Take one to two capsules per day, on an empty stomach.

Note: If you are pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children.

The TonicSea Quality Difference

This product is non-GMO, vegetarian-friendly and made in a cGMP facility. It is also free of wheat/gluten, soy, dairy, shellfish, egg, tree nuts, and artificial colors.
