## NEW ZEALAND MANUKA HONEY EXPORT QUALITY

- Manuka Doctor - specialists in high quality New Zealand Manuka Honey.
- This product meets the New Zealand Government's standard for Monofloral and Multifloral Manuka Honey.
- The MGO (methylglyoxal mg/kg) level is derived from DHA (dihydroxyacetone) which is naturally present in the nectar of the Manuka Bush.
- The MGO level is validated by independent labs in NZ.
- Hive to Home Guaranteed.
