## Important Safety Issues:

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty.
- Havit Commercial does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- Aluminium and 304SS fittings must not be installed within 2km of any salt water environments.
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

## Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove mounting bracket from canopy by removing screws on side and setting aside.
3. Install bracket in desired location using appropriate screws for application.
4. Adjust length of cable on both sides of fitting and insert excess cable into ceiling space for connection later.
5. Reattach canopy to bracket with screws set aside earlier making sure these are tight.
6. Connect the cable: Check cable for polarity instructions and connect to LED Driver making sure polarity is correct to avoid any damage to fitting.
7. Connect plug supplied with LED Driver to 240v Power
8. Fitting is preset to 3000k, To change slide switch on side of canopy to desired colour temperature. This step must be done only when fitting is OFF.
9. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

**Must be installed by a licensed electrician**
