### Important Safety Issues;

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty.
- Havit Commercial does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- All o-rings and seals must be in place correctly to maintain warranty.

### Steps for Installation;

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove the baseplate by twisting anti-clockwise.
3. Disconnect plug which joins fitting to baseplate.
4. Install the baseplate securely with appropriate screws to suit application.
5. Connect the cable -
  - o 240v models, (use wire with earth); connect the earth first, then live and neutral wire.
  - o Connect cable to Dali System
6. Reconnect plug that joins fitting to baseplate.
7. Select colour temperature by switch (see diagram 1)  
( fitting must be turned off while selecting colour temperature.)
8. Re-attach the fitting to the baseplate by twisting clockwise.
9. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

**THESE FITTINGS MUST BE INSTALLED BY A LICENSED ELECTRICIAN**
