Important Safety Issues:

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty.
- Havit Lighting does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- When installing low voltage fittings, Voltage to fitting must be within +or- 5% of voltage required, if not within this allowance warranty will be voided.
- Aluminium and 304SS fittings must not be installed within 2km of any salt water environments.
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove bracket from canopy by removing 2x Screws on side and set aside.
3. Install bracket in desired location using appropriate screws for application.
4. Adjust cable to desired length.
5. Connect the cable: Use wire with earth, connect earth first then positive and then neutral
6. Connect Dali Signal cable.
7. Reattach canopy to bracket making sure screws are tight, Do not overtighten.
8. Fitting is preset to 3000k, To change, slide switch on top of fitting to desired colour temperature
9. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

Must be installed by a licensed electrician
