

FAMILY rule

HANG THE RULES

This height chart is not a toy and must be hung by an adult on a solid wall according to these instructions.

YOUR HANDY POUCH CONTAINS:

- 1 x screw
- 1 x wall plug
- 1 x black Sharpie pen
- 1 x double sided sticky pad

YOU WILL NEED:

- power drill (8mm drill bit)
- spirit level
- screwdriver
- pencil
- tape measure

STEP 1

Decide where you would like to hang your Family Rule.

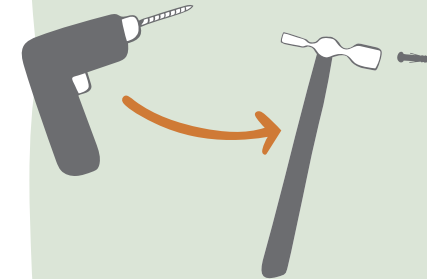

With a tape measure mark the spot exactly at 182cm from the floor with a pencil.

To help your Family Rule settle in gently to its new home please ensure it's hung away from any areas of direct heat, damp or fluctuating temperatures.

STEP 2

Drill in at the pencil mark and tap the raw plug into the hole.

STEP 3

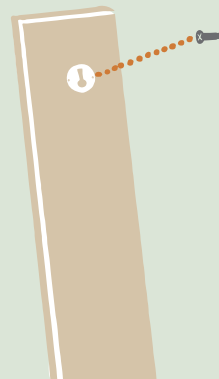

Insert the screw into the raw plug and tighten using the screwdriver.

Ensure the head of the screw remains protruded from the wall by approximately 5mm.

STEP 4

Lift your Family Rule onto the screw making sure to align the keyhole hook to the screw head.

STEP 5

Step back and ensure it is all looking level, grab your Sharpie and start marking your heights!

OPTIONAL

Attach the little double sided sticky pad to the back of your Family Rule towards the bottom to stop any movement

YOU RULE!

We'd love to see a pic of your Family Rule in its new home!
