

INTRODUCING
THE ALL **NEW**

ORION™ 550 SERIES

Whelen Aerospace Technologies (WAT) provides the highest performance lighting system for the Orion 550 Series products incorporating both the WHITE flashing Anti-Collision light, and the Tail Position light functions. State of the art LED circuitry is built in to eliminate the need for separate flasher boxes for operation. The footprint, and mounting, are identical to legacy Whelen products for ease of installation and retrofit.

FAA/TSO

SPECS

- Weight: .20 lbs ● 14 VDC
- Current Draw: Position lights .2 Amps. Anti-Collision Lights 3.8 Amps.
- Smaller base profile to easily mount in supercubs, Vans RV's, and aircraft with tapered tail fins
- Reduces electrical load and heat output
- Increases safety, see and be seen
