# BOHEMIA PAPER

The traditional craft of printers and scribes has evolved in Czech lands for hundreds of years. Home to some of the first paper manufacturers, bookbinders, engravers, and printing masters of Europe, the hand production of these products was nearly lost in the 20th century. The inherited history of these artisans inspired us in 1995 to found a family company to produce hand-made paper.

As time went by our production expanded to include traditional printing techniques. Our business grew and we soon set up operations in a spacious 17th century farm estate in the picturesque Podřipsko area of Bohemia. Our craftsmanship and individuality brought us success not only in our home country, but also abroad. We now send original hand printed products from the heart of Bohemia across the world.

Printing on machines that are nearly one hundred years old, genuine craftsmanship and high-quality paper has become the basis of our work, the results of which you can both see and feel in the finished product.

A handwritten signature in black ink, appearing to read "Jan Štěpán".

# PRINTING TECHNIQUES

## Engraving

Engraving is one of the oldest and most beautiful techniques for reproducing text or images on paper.

The original work is engraved mirror-like into a copper or steel die which is then put on a press and covered with ink. Pressing the die onto paper creates a raised image which, when completed, can be sensed by touch. In engraving, each piece of paper must be manually run through the press one by one, yielding the finest results of all printing techniques.

## Blind embossing

Blind embossing is a printing technique similar to gravure. A raised area image is created by pressing the paper into a die. Unlike the gravure, no ink is used. The pressed image makes a structure which feels nice and brings a highly sophisticated look to the paper. The simple, achromatic elegance of blind embossing contributes to its ageless attraction and thus differs from other types of printing.

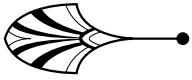

## Letterpress

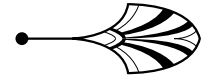

Letterpress was developed by Johannes Gutenberg in the 15th century. The nature of it requires using thicker paper of high quality that does not tear under the high pressure of the press. The paper that we use has soft and flexible fiber which absorbs the ink well and produces a simple yet beautiful image that is pleasant to the touch.

# PRINT ON DEMAND

## Business printed material

A singular company culture should be reflected in printed matters of every firm. A consistent design of letterhead paper, correspondence sets or thank you cards sets the standard for company presentation.

The printed materials should take into account the hierarchy in the company. Therefore, besides the universal company line, we can also prepare an exclusive one which is focused on the highest-ranking representatives of management.

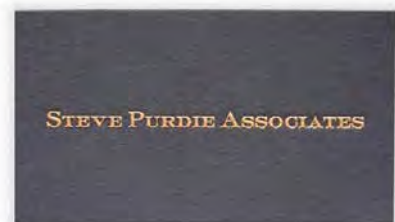

A part of company communication is also invitation cards to important events which should fit the character of the event and provide the guests with necessary information. In the set we offer to print a programme, seating chart, or table cards.

## Business cards

Being able to present yourself or show your individuality is an integral part of communication. A unique business card will immediately introduce you or your company and help to make the right first impression. While a business card represents a company giving information about its professionalism, a personal visit card should underline individuality of its bearer.

We will make a business card on demand using traditional printing techniques and high-quality paper. You can choose from a variety of fonts, colours and sizes. We also offer calligraphy, double-thick paper, rounded corners and coloured edges.

## Personal printed material

We enjoy spending important life moments with our family or friends. Carefully crafted printed material will make an original reminder of joyful moments such as a birth of baby, graduation or birthday party. Using traditional printing techniques and high-quality paper we will make an announcement card which will satisfy even the most demanding customers. To achieve a perfect effect we offer to complete envelopes with addresses – using either calligraphy or print.

The beauty of hand-written letter on top-quality paper can not compare with anything else. Unique correspondence sets are prepared on demand so that the chosen printing technique, letter type or ink correspond with your personality. Besides a choice of motifs, we also offer to print in a logo or monogram where we use mainly photogravure and letterpress. You can choose between coloured or han-made paper in various sizes. Correspondence set envelopes are sold with coloured lining which is inserted manually and with maximal care.

## Wedding

One of the most important life events deserves a stylish invitation. A wedding invitation should reflect individuality of every couple and help bring the right atmosphere. The design of printed material sets the tone of wedding decoration – whether it is a programme, seating chart or menu with table cards. We will be delighted to help with a preparation of wedding set, whether it is choosing an original concept, high-quality paper or providing perfectly crafted print.

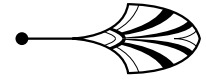

Except for a wedding announcement, we can use a uniting design for the entire set of printing materials which are used to decorate a wedding party. A printed programme, seating order or table cards with menus may help the celebration run smoothly. You can please your guests with wedding cookies in original box or a bottle of wine with design vignette. To commemorate this important day, we might prepare a hand-made album of wedding photographs.

# LOVE, WEDDING, VALENTINE'S DAY

The most beautiful moments in life are those we spend with a beloved person. Remember its importance in your life not only on Valentine's Day. For the newlywed, a promise of love for all life is an exceptional event at which you can congratulate with our Best Wishes, adding a nice memory to their big day.

A6 folded card / 11 381

# ZODIAC

Nowadays, the word zodiac is often connected with destiny hidden in the stars. Its origin comes from Greek and Latin word zoé which means animated being and refers to a belief of our ancestors that celestial objects have souls. A collection of wish cards with a motif of zodiac will not reveal your fate but you will be charmed by the craftsmanship which makes them an ideal addition to a birthday present.

# ART NOUVEAU ALFONS MUCHA

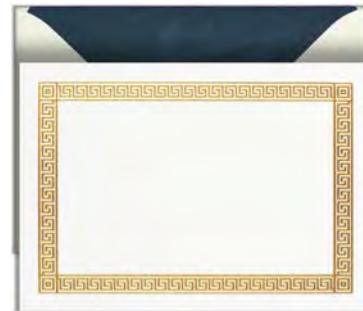

A Czech painter and decorative artist, Alfonse Mucha is recognized as an icon of the art nouveau.

After hard beginnings, it was in 1894 that he made a poster for the play, Gismonda. This was the breakthrough moment in his career that enthused the whole Paris. Mucha's art is characterized by paintings of women surrounded by motifs of nature. In our collection you can find motifs from decorative panels such as Four Seasons, Arts or Flowers as well as the renowned Gismonda.

# CUBISM

Czech cubism is a unique art which was born in 1910 and has influenced design and architecture here ever since. A group of avant-garde artists applied revolutionary cubist principals such as sharp edges, overlapping areas or crystalline structures to stunning affect. Our cubist note cards are inspired by art of Pavel Janák, a leader of the cubist movement who was renowned for both his modern architecture and his cubist porcelains.

# MARK PODWAL

The collection of Mark Podwal, American artist, writer, physician and publicist, is inspired by Prague and its association with Mozart. His passion for the European metropolis and Mozart resulted in a series of several dozens of fresh, mostly watercolor illustrations depicting stories from the composer's life that he had spent several times in Prague. A carefully assembled selection of handcrafted illustrations makes for a collection with a modern feel, wittily blending motifs of Prague and music.

# HUNTING

It was not so long ago that hunts were considered an important social event which, besides the art of chasing, was connected with prestige and noblesse. Aristocratic roots of the tradition inspired us to make a set of note cards that combine elegance and passion for nature. Finely crafted paper and traditional printing will guarantee a unique effect for every recipient.

# HISTORICAL MAPS, CITIES AND OTHERS

Historical engravings of Prague, Venice or New York can be sent away to the whole world thanks to a set of our wish cards with motifs of historical maps and cities. The precise craft and use of traditional die stamping will enthuse both travelers and historians. Some motifs are hand-coloured which makes every wish card a unique piece of art. A collection with sights of Prague is also a perfect present for friends or business partners from abroad.

# INVITATION CARDS, MENUS AND TABLE CARDS

Sending printed invitation cards means you care for your guests and show them how important and special they are to you. During the very event, they will appreciate menus and table cards which will also ensure that the event goes smoothly. With our traditional printing techniques, the invitation cards and other cards will not only catch the eye but will appeal to touch as well. We will be happy to complete ready-made motifs from our extensive catalog with printed text on your demand.

## GIFT CARD ENVELOPES

Original gifts deserve a special package. Whether they are tickets to the event long desired for, a voucher or the cash to make a dream come true, our envelopes will create the right atmosphere even before opened. Motifs printed by die stamping or letter-print can be completed with a personal message or congratulation. An elegant ribbon is a part of the envelope.

# HAND-MADE PAPER

The scent of hand-made paper will nostalgically remind you of nearly forgotten personal letters. In our collection, you can choose from various shapes and colour combinations. We treat every piece with individual care therefore every envelope is ripped, folded and glued by work of hand. A perfect result can be achieved on the paper by using a fountain pen.

Gift Box with Handmade Paper, 10 A5 folded cards & 10 C5 envelopes

# LEATHER PRODUCTS

Elegant and stylish leather products from our collection focus on detail, making a timeless accessory. Business card cases, pen cases, and note-books are sewn by hand from Italian leather of highest quality. Additionally, all the leather products can be personalized by embossing your initials or logo with either blind embossing, or silver or gold printing.
