

RÉVÉLATIONS BOUTIQUE

Important Note: Before you print, please ensure that 'Page Sizing and Handling' is set to 'Actual Size' in the print dialogue box. Once printed, place your credit card on the line below and check it fits exactly between the two end lines. If it does not fit exactly, please check your print settings.

To measure your current ring:

1. Find a ring that fits correctly on the intended finger (one that fits snugly, but can still slide over the knuckle without force)
2. Place the ring over the sizing circles to match the internal diameter
3. Select the sizing circle that is nearest in size to the inside diameter of your ring, ensuring it aligns evenly the whole way around the inside edge

Or, cut out the below measurer and follow these instructions:

1. Carefully cut the dotted line to create a slit
2. Place the measurer around the selected finger and insert the tapered end into the slit
3. Adjust until the measurer can slide over your knuckle snugly and take note of the corresponding size

This ring sizing guide is a referencing tool only to help you in the selection of the perfect piece.
