QuickStart

- Less waiting, faster coffee with QuickStart

PHILIPS

Fully automatic espresso machine
12 beverages LatteGo, Black Chrome

EP4447/90

Highlights

12 hot & iced drinks

Our 12 recipes range from warming drinks like espresso, milky lattes and cappuccinos, right through to cooling iced coffees. We've calibrated our brewing system so even iced coffees have the same delicious flavour as hot drinks.

LatteGo milk system

Our powerful cyclonic frothing technology lets you create silky smooth milk froth at the touch of a button, even with plant-based milk alternatives.

Intuitive display

Our easy-to-use, intuitive display is your place to select a recipe, and adjust the strength, coffee length and milk volume. Want to save your preferences? Save your drink in one of two user profiles.

SilentBrew technology

Our patented SilentBrew technology reduces machine sounds so you can enjoy the experience of brewing aromatic coffee more. Using sound shielding and quiet grinding, our machines make 40% less noise than earlier models and come with a Quiet Mark certification.

The fastest to clean milk system*

With just two parts and no tubes, our milk system can be cleaned in under 10 seconds. In the dishwasher or under a tap. Philips doesn't offer automatic cleaning as it requires complementary cleaning

QuickStart

No more waiting for your machine to warm up. Our QuickStart function allows you to power on your machine and brew a coffee

right away. Your machine will heat up based on the selected recipe.

100% ceramic grinders

Bring out the full flavour of your beans with our hardwearing ceramic grinder. Fine-tune the grind size using one of 12 settings, from fine to coarse.

Perfect temperature and aroma

Our Aroma Extract system finds the ideal balance between temperature and aroma by keeping the water temperature between 90 and 98C, all while regulating the water flow rate.

AquaClean filter

Brew up to 5000 cups without having to descale using an AquaClean filter. It purifies water before brewing begins so your coffee tastes more flavoursome.

Specifications
