(85 year old bush vine Grenache)
Alcohol: 14.5%
Total Acidity: 6.4g/L
Residual Sugar: 0.9g/L

The humble grape has been fermented for human pleasure since before written history.

Naturally, a product with such a long history is drenched in tradition. Wine has become more than a drink; it's a cultural phenomenon with its own language, its own rules and traditions evolved over centuries. But while traditions are to be respected, sometimes you have to give them a shake to take a step forward and push the boundaries.

Enter the Rogue Vintner.

The Rogue Vintner plays by his own rules. A non-conformist by nature, he brings a sense of the playful and mischievous to the art of making wine. Unrestricted by traditional norms, wines are described in plain language rather than industry buzzwords. There are no board meetings, no ties to regions, no restrictions, no limits; the only rules are flavour, balance and intrigue.

There's a bit of rogue in all of us.
Come and find yours today.
