2021 PINOT GRIS

Region: Great Southern, Western Australia

Sub-region: 80% Mount Barker, 20% Frankland River

Variety: 100% Pinot Gris

WINEMAKING

The Mount Barker portion of the blend consisted of 100% free-run juice which was fermented in stainless steel at cool temperatures to retain the purity of the fruit in a more traditional Grigio style. The Frankland River portion was slightly riper and included the heavy pressings in the ferment along with some extended time on lees in stainless steel post ferment adding richness and texture.

As a result the Frankland River portion has worked perfectly in the blend resulting in a bright, fresh style of Pinot Gris with enough mouthfeel and complexity to hold your interest.

TECHNICAL DETAILS

Alcohol: 12.5%

TA: 5.2 g/L

RS: 2 g/L

Cellaring potential: 2022 - 2025

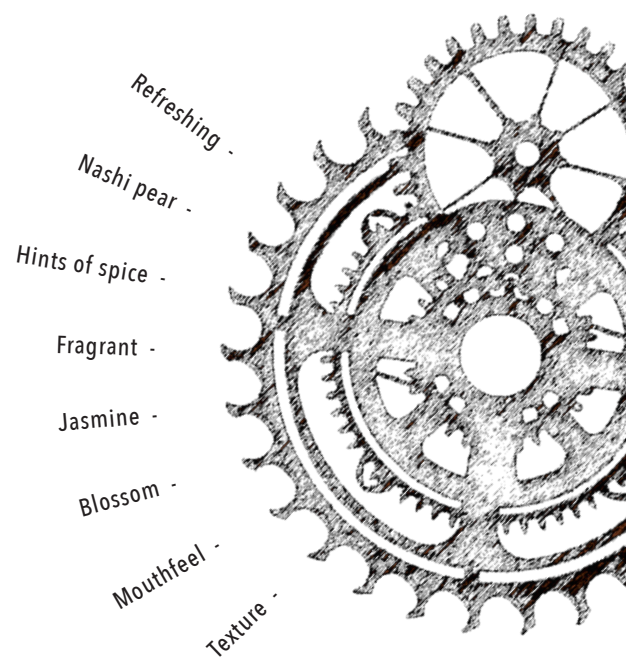

Cases produced: 239 dozen

FOOD PAIRING

Warm goats cheese salad with candied walnuts

Grilled salmon

Prawn and pea risottos
