

YOUR **TFS** SLATWALL

YOUR TFS SLATWALL

Slatwall can serve as a simple backdrop for wall shelves or you can use panels to increase your merchandising potential on gondolas and other fixtures.

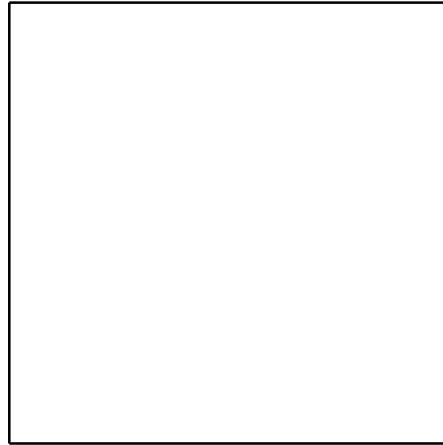

This Canadian-made slatwall is created to order so that it is perfect for your space. You get to choose the number of slats and your colour. This means you get to create the exact retail impression you need.

CHOOSE YOUR COLOUR

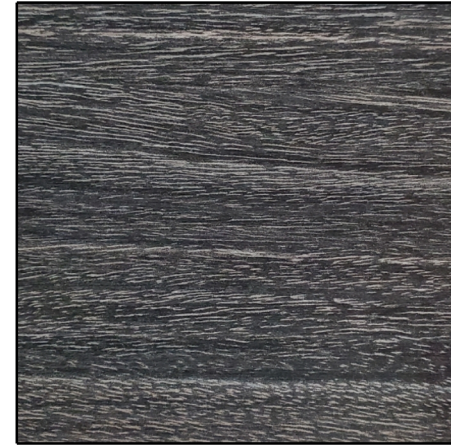

You can choose one of these six TFS standard colours. If you require a colour other than these standard options, talk to us. We are happy to find you a solution. There may be added cost and/or time required for this sort of customization.

OATMEAL COOKIE

WHITE

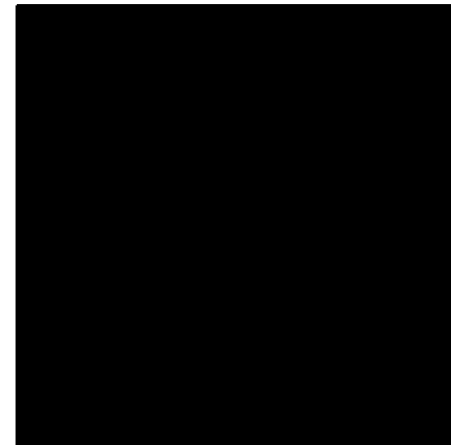

BLACK FOREST

PEACH COBBLER
