#### LAW OF LIFE OF THE WEEK

#### - MY VISION FOR NETWORKING -

NEW NETWORKING - NEW COLLABORATION FOR YOU TO JOIN!
LEAD YOUR OWN BREAKOUT ROOM OR HELP CO-WRITE THE
COMMUNITY COLLABORATION ARTICLE ON "FITNESS FIGURATIVELY"

Join us every Tuesday at 11:00 am for Free Networking!

https://zoom.us/meeting/register/tJAo-fuqqqz0rE9BbVA1qg7ReBrlGlVJWvW8y

Tuesday, September 29, 2020 at 11:00 am is our next networking group. The link is different now and has been changed. Last week, we split up into breakout teams and created a new collaboration. In my room, I was with Mr. Fitness USA and a financial guru by the name of \_\_\_\_\_\_ who has volunteered to lead the committee on our new collaboration. Initially, I couldn't figure out how the three of us tied together. And then we realized – all of us strive for fitness in our respective areas of life, figuratively speaking. The community collaboration article for this newsletter was then born!

The Laws of Life Networking Group is now inviting YOU to participate in the creation of a community article on how you view fitness in your niche. We realized that at the end of the day, everyone wants to be "optimally fit" within their respective niches such as finance, fitness, health, nutrition, and in life. Please submit 500 words to blanca@lawsoflife.shop and be a part of our community collaboration. Let's have this article go VIRAL. Your name, picture and photo will be featured in the article. There is no fee.

# We discovered the advantages of breakout rooms to be as follows:

Smaller rooms allowed more intimate conversations amongst the attendees

Smaller rooms developed more strategic collaborations. Every breakout room was asked to build a collaboration and joined the creative communication article.

The leaders of the room picked the winning pitch and so we only listened to 5 pitches instead of spending the entire time on 43 pitches.

The global group was able to enjoy a more multi-dimensional dialogue and get to know each other as a whole.

Question for you:
What room appeals to you?
Just email
blanca@lawsoflife.shop and let us know
which room you wish to join for part of the
meeting for this week's meeting on
Tuesday September 29, 2020.

## The Current Breakout Rooms are as follows:

#### LAW OF NETWORKING 103:

I believe the key to networking is creating a unique collaboration. When two entrepreneurs create something together, they build an entrepreneurial memory that lasts a lifetime and it is this exercise that builds loyalty and friendship between them. Check out next week's newsletter for more ideas on creative collaborations and how to build your business with them.

Dr. Jacob Levin is Chairman of the Global Biotechnology Innovation Organization (BIO) and also CEO/chairman of OVID Therapeutics. He is also a published author of Biotechnology in the Time of COVID-19: Commentaries from the Front Line which highlights a collection of diverse viewpoints from over 45 thought-leaders in the biotechnology industry and their efforts to battle the COVID-19 pandemic. ON THE LAWS OF LIFE WITH BLANCA:

For over forty years, the biotechnology industry has built an ecosystem of scientists, entrepreneurs, doctors, investors, venture capitalists, analysts, media, and bankers, all committed to advancing global health. In two months, leaders and companies at the forefront of biotech have pivoted from the work they were carrying on pre-COVID-19 to face off against the virus.

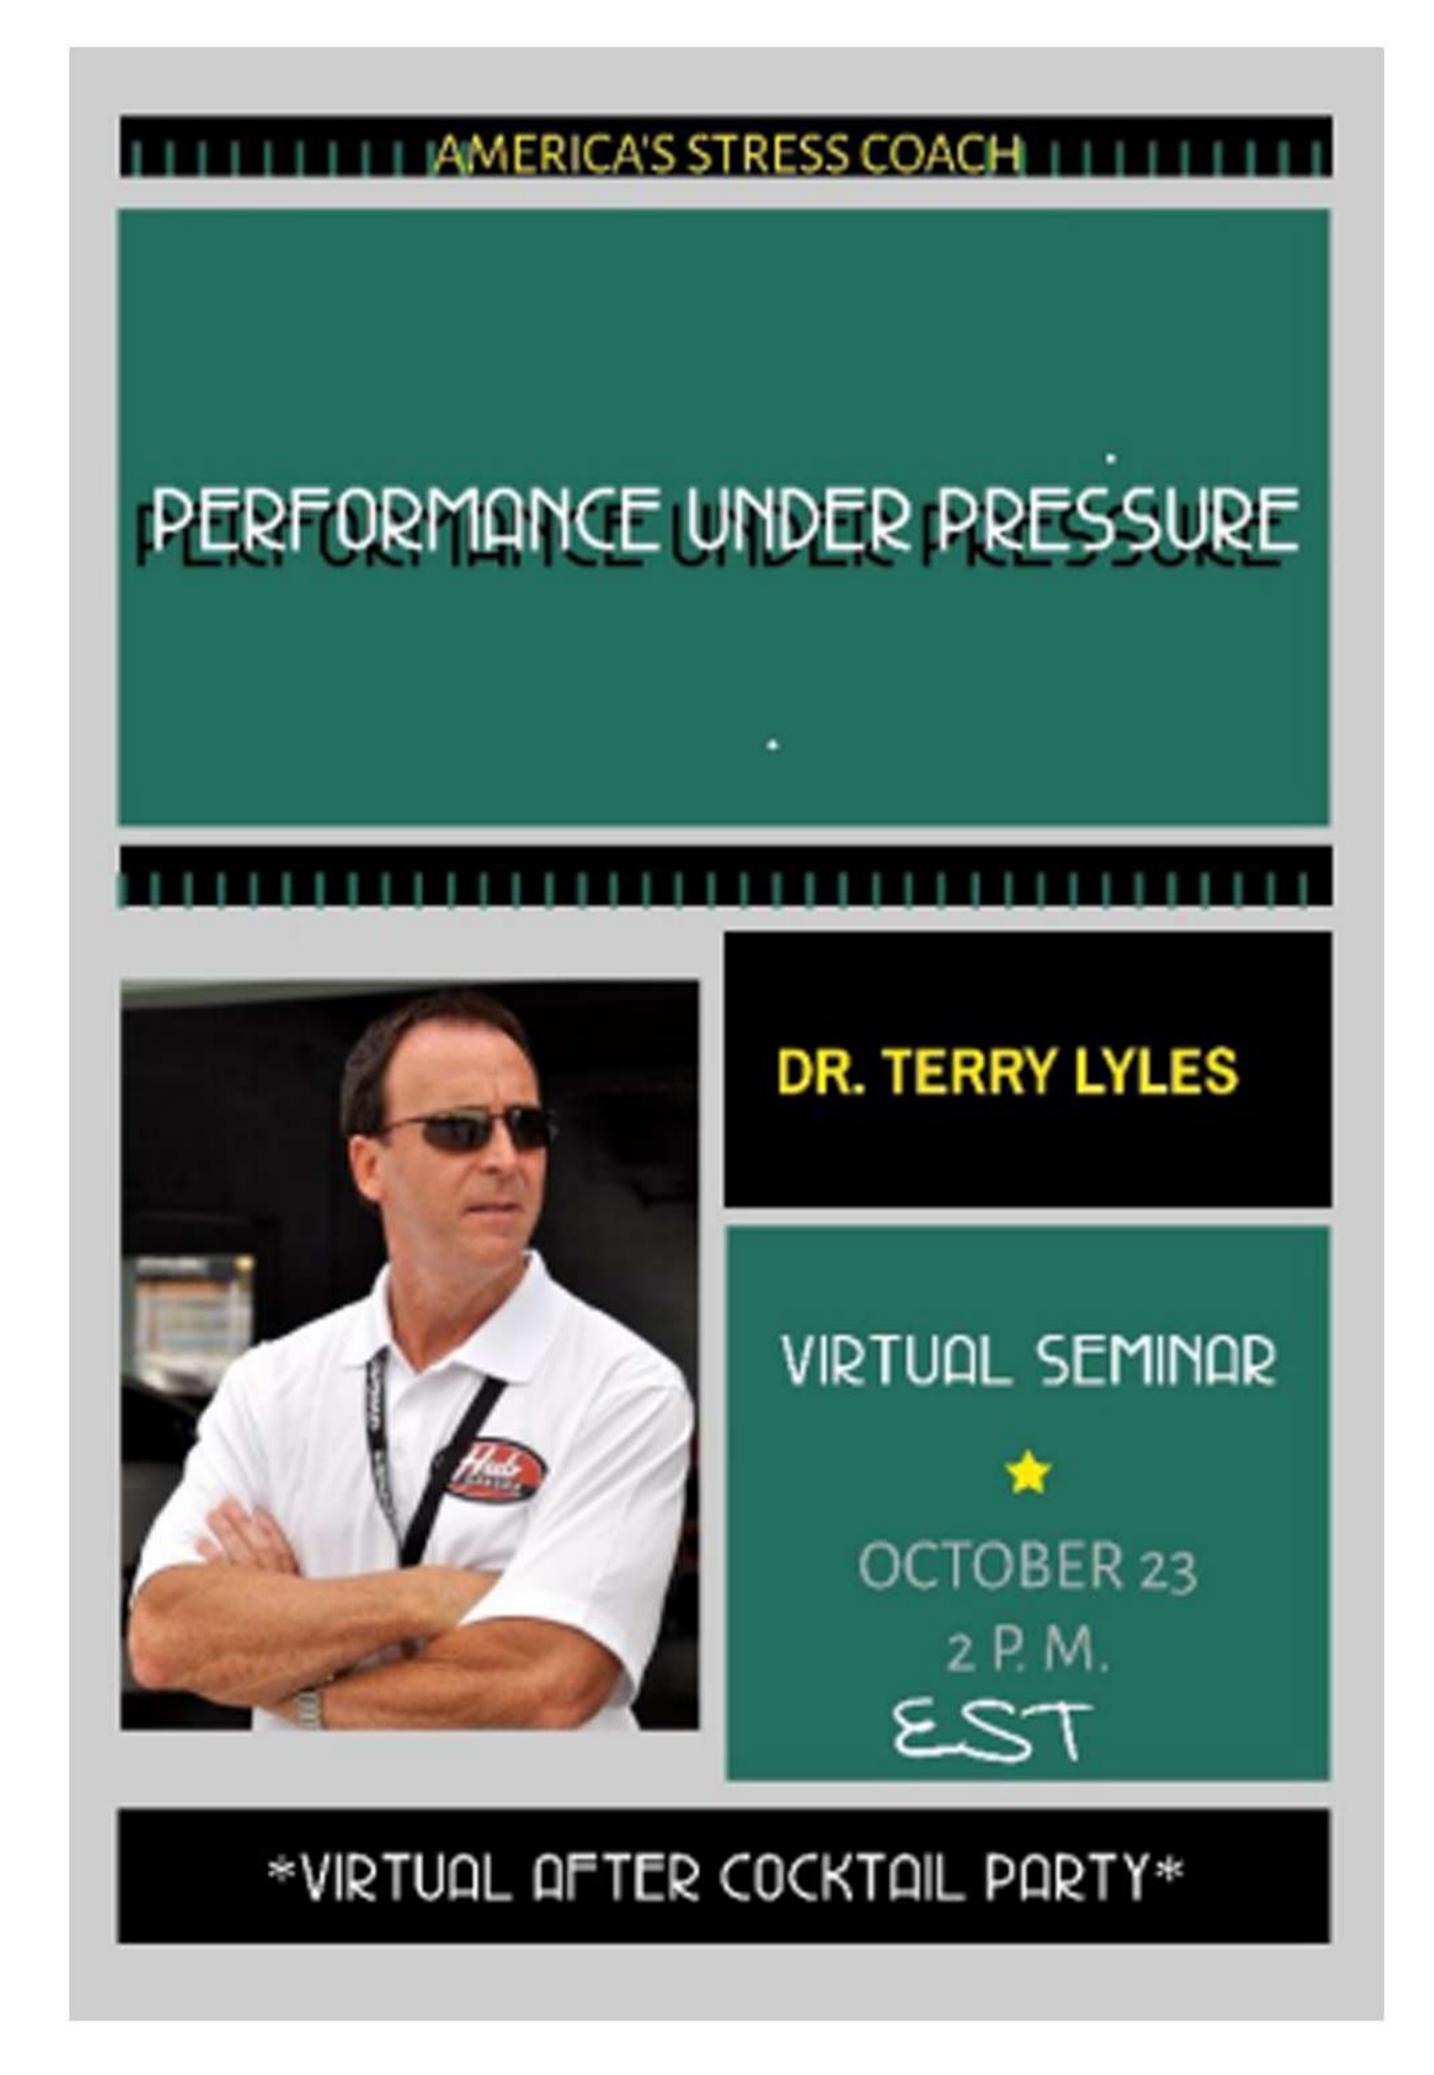

In Biotechnology in the Time of COVID-19, forty-seven contributors offer historical, personal, and investor perspectives, views from inside the biotech companies, broad lessons, leadership, and a look to the future.

"This book is the opening chapter in the story of how the biopharmaceutical industry, both large and small companies, rose to battle the COVID-19 virus. All share the commitment to fight, and the conviction that science and medicine will prevail. I salute my colleagues throughout the industry, some of whose words are recorded in this book," said Dr. Levin, Chairman and CEO of Ovid Therapeutics Inc. and Chairman of the Biotechnology Innovation Organization (BIO).

The editor royalties and a portion of publisher revenues will be donated to two nonprofits focused on rare disease research: *Global Genes* and The Institute for Life Changing Medicines.

#### **About the Event:**

About Dr. Lyles' event: In "Performance Under Pressure," Dr. Lyles not only brings to light the various stresses that may be unsuspectingly impacting your life, but also assists you in discovering and working with your own personal stress code, which will help you free yourself from self-sabotaging behaviors, keeping you on track toward accomplishing your goals and dreams.

Through the time spent in service to victims, emergency and rescue personnel, and armed forces at some of the world's most impactful disasters (9/11, Hurricane Katrina, and the Asian tsunami), fatherhood with a special needs child, coaching work with professional athletes as well as everyday people, you will come to see what many others have seen – become the positive, powerful force for your own enhanced performance and life success.

Stop trying to manage stress! Instead, create a life that works for you with tips, tools, and instruction that top athletes and professionals pay thousands of dollars to learn. The power really is in your hands: "Performance Under Pressure" not only changes our minds about stress, it inspires your heart to embrace and live life as never before.

Dr. Lyles has trained hundreds of individuals including Fire Rescue workers in and around Ground Zero, International Forensic Medical teams in the Asian tsunami-torn area, and the United States Air Force Space Command, sharing his time-tested, scientifically measured approaches to stress utilization. Major corporations have also benefited from this training technology, including DaimlerChrysler, Banana Republic, Macy's West, Pfizer, Universal Studios, and Tommy Hilfiger, to name just a few. Dr. Lyles has appeared on NBC, ABC, USA Today, CNN, Headlines News, The Big Idea with Donny Deutsch, and FOX NEWS, and in U.S. News & World Report as a Corporate Performance Enhancement and Life-Balance Specialist. He also hosted a premiere talk show sponsored by Success Magazine and was heard as the "Stress Doctor" in South Florida.
