Ring Sizing Guide

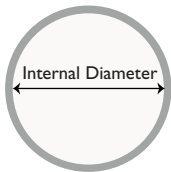

For use with a ring. For the greatest accuracy use a ring with a similar band width to the one you want to buy.

1. Print out this page at 100% - Do not select the scale to fit or shrink to fit options in the print dialogue box.

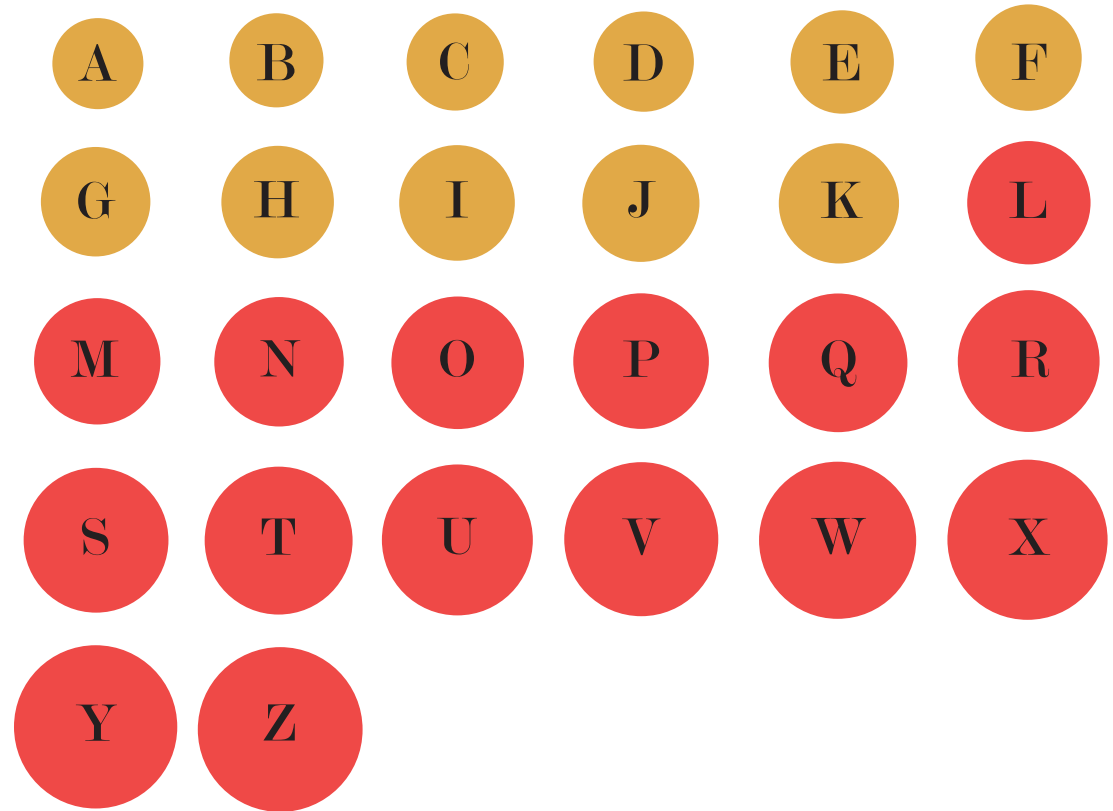

2. Check print size is accurate - the line below should measure 5cm finger to finger.

3. Place the existing ring over the circles to the right.

4. Find the circle which completely fills the inside of the ring without overlapping.

5. Your ring size is the letter shown in the circle.

Most of our ladies ring sizes are available in sizes L to S. Most men's ring sizes are P to Z. If you see a ring that you like that is not available in your size then please contact our workshop on 0044 (0)208 878 1133 or at info@otisjaxon.com to see if we can help.
