

JENSEN®

X-5 & X-7

Information Manual

Congratulations in purchasing one of JENSEN's finest range of Floorstanding Speaker systems. Your X-5 and X-7 are designed for both Hi-Fi stereo listening as well as Home Theatre.

Room placement. Best positioning for your X-5 / X-7 is to stand them appx. 10-20cm from a wall. This will enable the rear ports to breathe efficiently and provide maximum acoustic coupling into your room. i.e. more efficient Bass.

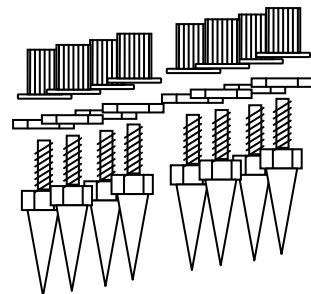

Connection Tip. It is most important that all Speaker Lead positives (+) connect to positives, and all negatives (-) connect to negatives. Severe Bass loss will result if reversed. Ensure all speaker leads and gold terminal connectors are screwed tight and that gold screw terminals are firmly in place between top and bottom gold connectors.

Validate Your Warranty: These models have a unique 10 Year warranty which MUST be validated within 14 days of purchase. To do this go to www.bdimports.com.au and simply click on "Online Warranty Registration".

Accessories:

8 pce Spike set (optional extra X-5/7). Why use Spikes ?

- Speaker box can be unstable when sitting on carpet.
- Ideal for carpet use – preserves carpet.
- Improves, deepens and tightens Bass frequencies.
- Safer for children and easy to install.

Cost: \$48 set of 8 incl P&P (RRP \$89 save \$41)
(offer available to X-5, X-7 purchasers only).

To order: Go to "Contact Us" section of www.bdimports.com.au and provide Postal address and Credit Card details online or phone JENSEN Spike desk on (03)9846 3996.

	Power Handling	Ohms.	Freq. Resp.	Tweeter	Woofers	Tweeter Protn.	Dimensions H x W x D	Warranty
