explosive home theatre

# thunderous explosive loud

JENSEN® engineers are fanatics! For over 41 years they have pushed the boundaries of sonic performance and speaker design to create the pure power of the ZR range of hi-fi and home theatre packages. There's even a 10 year warranty. Listen to what the experts are hearing and experience the pure power of ZR!

## ZR-2005 All-in-one 5.1 Speaker Package with Mounting Brackets

This is extreme sound guaranteed to put the 'wow' factor back into home theatre. Take one monster ZR-81 160 watt powered subwoofer and combine it with five high powered ZR-0.5 modules. Because they're magnetically shielded, they can be mounted anywhere – on the monitor, on the wall, on the ceiling, and JENSEN's omni-directional brackets can be swivelled to optimise sound direction. You can even add a single ZR-0.5 to make a 6.1 system.

A perfect sound solution guaranteed to put the 'hallelujah' into any chorus.

ZR 2005

## ZR-0.5 Single Speakers

'You talkin' to me?' You'll know who's talking through these speakers when they hit you at 112 db! JENSEN's magnetic shielding and omni-directional brackets mean that you can direct your sound wherever you want it. And if all that sounds incredible, just look at the enclosures – they're teensy. All that technology packed into a compact, fully paintable silver casing that's been designed by JENSEN® engineers to be well and truly heard, but not seen.

ZR-0.5

## ZR-11 and ZR-21 Bookshelf Speakers

JENSEN® engineers have incorporated a high efficiency polycell silk dome tweeter featuring a 25 mm ferro-cooled voice coil and a huge 142gm (5 ounce) magnet. The midwoofer is a solid, low mass, high efficiency masterpiece (130mm in the ZR-11 and twin 100mm in the ZR-21). Both use keyhole wall-mount brackets for easy installation and feature tweeter circuit protection. High-powered and low distortion.

ZR-11

## ZR-31 and ZR-41 Floor Standing Speakers

Pick a CD. Any CD. Now listen to it through these ZR floor standing speakers and hear the difference. Engineered for crystal clear hi-fi or front staging home theatre systems, the ZR-31 and ZR-41 are plasma compatible. Internal bracing, massive crossovers and solid enclosures provide strength as well as good looks and butyl rubber surrounds on the drivers ensure that moist, humid conditions don't dampen your sound, no matter what you're listening to.

ZR-31

ZR-41

ZR-21

### JENSEN® Monster Woofers

Make the earth move for you with massive magnets and colossal 35mm voice coils make for bigger than big bass legends. Thumping, booming reverberation never felt so good.

### ZR-51 Flagship Floor Standing Speakers

The flagship ZR-51's stand tall & elegantly on spike tips or rubber pads. But don't be fooled; from the sweet, effortless transients of Hi-Fi to the awesome grunt of Hi-Octane Home Theatre, these speakers will astound you! Their 27kg based enclosures, triple 6.5" long throw drivers, silk dome tweeters with massive magnets and a crossover network featuring circuitry protection are just the thing to let you turn it up - and we suggest you do!

ZR-51

# ZR

Unconditional 10 Year Warranty (1 Year on amplifiers) on faulty materials and/or workmanship and all user related overpowering problems. Warranty Registration Cards need to be returned for warranty validation.

ZR-61

### ZR-61 and ZR-71 Centre Channels

Delivering 'in your face' sound, the ZR-61 and ZR-71 centre channels can be positioned close to the monitor

to provide seamless, smooth dialogue plus all the attacking action packed centre staging effects of Hollywood sound right in your lounge room.

Full magnetic shielding equates to no video distortion. With Jensen's new

silk dome tweeter complete with 21,000

screaming hertz, a dual midwoofer and quad midwoofer

models, you can finally experience the power, the glory and the beautiful subtleties of authentic cinema sound.

ZR-71

### Crossover Protection

The heartbeat of every JENSEN® speaker. This electronic nerve centre effortlessly splits, smooths and divides audio signals to the tweeters, mid-woofers and woofers. Tweeter circuit protection is available on all models and protects your system just in case you like to crank it up a little - and we suggest you do.

### ZR-81 and ZR-91 Subwoofers

Crank it up – this is sound you can feel! It's big, deep, booming bass. DVDs and CDs are jam packed with it, and true audiophiles need it to shake their walls and raise their roof. Each glass topped ZR subwoofer is fully loaded with monster subwoofers ready to explode with up to 250 watts of pure audio dynamite through on-board, extreme high current amplifiers. High performance, high volume JENSEN® subwoofers are powered up to reproduce bass so deep, you just want to dig it.

ZR-81

ZR-91

### ZR Colour Selection

Wild Cherry • Graphite Black • Titanium Silver  
Black & Silver are premium quality, High Gloss Designer finishes with a subtle metal fleck . All models (except ZR 0.5 and ZR 2005) available in 3 colours. ZR 0.5 fully paintable.
