Jeffery Psota is an experienced educator who uses Love and Logic nearly everyday! He has over 26 years teaching elementary education and 8 years teaching future educators at Ottawa University. Jeffery also teaches Summer Enrichment classes and is a trained Love and Logic Facilitator, which has led to multiple training opportunities throughout the Greater Kansas City area. Jeffery has a bachelors degree in elementary education from the University of Nebraska and masters degrees in technology in the classroom (Walden University), curriculum instruction, and administration (both from Emporia State University). Besides his passion for education, Jeffery is involved with animal rescue and he is currently providing a forever home for his four furry rescue dogs! Put some fun back into parenting and teaching review his website for his latest class opportunities or to book a private contract for his inexpensive facilitation fees!

Curriculum : 9 Essential Skills for the Love and Logic Classroom

My name is Julie Szczuka and I have been an educator for over 10 years. My passion is to work with children to help mold them into educated, productive citizens in the community. My goal is to build relationships with them in order to create a positive learning environment to see both academic and personal growth.

I graduated with my bachelor's degree in Elementary Education from the University of Missouri-St. Louis and received my M.Ed. in Language and Literacy from Park University. I started my career at Arrowpoint Elementary in the Hazelwood School District in 2006 as a Title 1 Reading teacher assistant. The following year I took a position as a 1st grade teacher in the same building. I have taught 1st and 2nd grades. This past year I took a position as a Tier 3 Reading Specialist. I have taken on the leadership roles as a new teacher mentor, data team leader, district curriculum facilitator, and the PTA treasurer.

In February 2017, I went to the Love and Logic Facilitator training to gain a better understanding of bLove and Logic and help myself be a happier healthier person so I could provide the best learning environment for my students. My goal is to facilitate this program to pass on the goal of bLove and Logic which is to provide people an opportunity to make a lasting and positive influence in their schools and community.
