I have been teaching for over 30 years, working with the families of students across the elementary grades. As our world continues to grow faster and more complicated, parents need additional tools to successfully reach and guide their children. I hope to assist parents in helping children develop the social and emotional skills needed to reach their goals.

Essential Skills for the Love and Logic Classroom

Former teacher with Conroe ISD for 22 years and founding parent liaison for The Parent Resource Center for 13 years. We facilitated " Becoming a Love and Logic Parent" for the district at various campuses . I am now retired and as facilitator offer both the Love and Logic parent and teacher curriculum to school districts, pre- schools , churches, private physicians/counselors, and parent groups. As a grandmother I use these strategies constantly and when a young parent, I wish I had these skills when raising my four boys!!!

Hey ya'!!! I was born and raised in El Paso, Texas, a large city in the far western tip of the state. I moved to Denton and earned my degree in Human Development and Family Studies and discovered a burning desire for parent and community education. I'm a provisionally certified Family Life Educator through the National Council on Family Relations and love to equip parents with specific tools and knowledge to raise the most responsible kids they can- and have a lot of fun doing it! I'm a mom of a rambunctious and hilarious preschooler, and have another kiddo on the way! Please contact me with any inquiries regarding Love and Logic parenting courses and presentations, no matter how big or small!

I am a retired teacher. I have 22 years of public education experience working as a certified Generic Special Education Teacher, a Project KIDS Service Coordinator/Early Childhood Intervention, Educational Diagnostician, and School Social Worker. In addition, I have 13 years working experience as a Licensed Master Social Worker outside of the public schools setting, which include Hospital Settings (Crisis Interventionist/Mobile Assessor), Home Health Agency, and Non-Profit Agency. My current credentials include Master Social Worker (MSW); certified, life-time Generic Special Education Teacher; and Educational Diagnostician certification.

Curriculum : Early Childhood Parenting Made Fun!

I am a certified early childhood-12th Grade Theatre Teacher with Birdville ISD, and an Independent Facilitator of Love and Logic Early Childhood Parenting Made Fun!B. Curriculum. I have 7 years of experience in the classroom with kids of all ages, and I would love to help you meet your goals! Whether you are a parent, educator, Preschool Director, or Children's Ministry Leader, I am sure there is a way we can partner together to meet your needs. I graduated from Texas Christian University with my BFA in Musical Theater and a Minor in Child Development. Years later I completed my alternative certification through ECAP Teach. As a fine arts educator, I have to establish firm boundaries in my classroom, while still maintaining a fun, safe, and engaging environment bell to bell-- Otherwise no one will sign up for my class! Love and Logic has helped me build genuine relationships with my students, and develop them into respectful and responsible young performers. Let's talk about how you can do the same! Please do not hesitate to contact me to schedule a workshop, or find out where the next one will be held.

I have worked with pre-school age children for 16 years. We use the Love & Logic curriculum in our preschools and it has been very successful. My goal is to teach as many educators and parents about Love & Logic as possible as this system is the best strategy for children of all ages.

Since 1994, I have provided speech language therapy to individuals ranging from 2 years old to 93 years old in a variety of settings. I was exposed to Love and LogicB. in 1997 through a colleague and began implementing the strategies at home and on the job. I attended the facilitator training in May 2017 and began facilitating classes. Currently, classes are offered in the homes of my participants, location designated by the participants, or at my home. My background in speech language pathology has equipped me to effectively implement the curricula as well as assist the participants in improving their communication skills with their children. I look forward to working with you on your quest to raise responsible and respectful children.

Gradi Hamman is the founder of Phoenix Enterprise Transformations. As a consultant to educators, parents and private-sector employers, Ms. Hamman provides school district administrators, classroom teachers and parents with behavior management strategies that transform the dynamics in the home, classroom and workplace. By introducing Love and Logic practices into each of these environments, there is documented evidence that there is a reduction in discipline referrals, more effective delivery of instruction and improved academic performance. As an educational workshop consultant and business management coach, Ms. Hamman assists in the transformation of human capital cultures (at school, home and work).

Gradi received her Bachelor's degree in Communication from Baylor University and Master's in Administration from Sam Houston State University. She founded one of Houston's Top 100 Fastest Growing Companies in 1994. As a curriculum developer and facilitator of community outreach programs, she created and expanded a local educational television initiative into a syndicated, tri-state program. As a staff development and training consultant, developed and executed district-wide Love and Logic TOT model through parent and classroom workshops on 51 campuses in one of the Houston area's premier districts. I welcome the opportunity to introduce Love and Logic to your district and parent community or teach a graduate course to teachers, school administrators and/or school counselors.

Essential Skills for the Love and Logic Classroom

During the past 25 years, I have taught in the classroom, coached young athletes and most recently, served as a school counselor. In my latest role as a counselor, I have seen the need and desire in parents to improve their parenting skills and relationships with their children. Often, I have the opportunity to practice some of these skills myself with three young grandchildren. It is my passion to equip parents of any age to learn how they can bring balance and restore control in their relationships at home. This is what Love and Logic® offers. It is great to see parents discover how easily they can implement L&L techniques and it is even better to hear about their successes with their children.

Curriculum : 9 Essential Skills for the Love and Logic Classroom

I have been using Love and Logic and teaching it for eight years now. My campus, which was a very difficult discipline alternative campus, thrived when the adults used Love and Logic consistently. The "tough" kids didn't understand what was happening to them and really didn't understand when their behavior improved. We loved when we heard new kids coming in and ask what we were really like. One of our favorite responses was "Man don't even try to argue with them because they won't do it no matter how hard you try to get them to do it. If you keep on, they'll walk away and then you really know your;re in trouble because they will make you do something and you have to be the one to figure out what the something is." Just do what you are supposed to do and you'll get out. If you do what you are supposed to do, they will even write letters to the judges about how you have learned to take responsibility and what you will do to make up for it.. You'll even find they still like you even when you don't deserve it." It works. Although I am struggling with my 14 year old grand daughter.. There are other things I want to say to her than Love and Logic things.

Curriculum : Parenting the Love and Logic Way,
Adults Supporting Youth with Challenging Pasts

Biography : I am passionate about helping families build and maintain happy and healthy relationships. I have my bachelor's degree in psychology and my master's degree in counseling. I have worked as a school-based counselor since 2006, and as a Love and Logic trainer since 2011. I am the mother and stepmother of two wonderful young adult sons, and mimi to my sweet granddaughter. My husband and I blended our families when our boys were just 3 and 4, we understand the challenges of blending families well. As a parent and a school counselor, I have opportunities every day to put the principles of Love and Logic into practice. I feel so fortunate to be a Love and Logic trainer, and to have the opportunity to share these principles with parents in our schools, churches and the community, as well as with my colleagues in education. It brings me such joy to witness the positive impact Love and Logic has on families.

I am a Love and Logic parent of two wonderful daughters and a Love and Logic teacher of 20 years. Love and Logic has truly made teaching fun again and is the absolute best program to handle kids who are hard to handle and to raise your own children to be great thinkers. Join me in raising a generation of children we can be proud of and trust to run our country!

Curriculum : Parenting the Love and Logic Way, 9 Essential Skills for the Love and Logic Classroom

Lauri Webb has served in education for almost 20 years in roles that have included teacher, school counselor, campus administrator, special programs coordinator, and district director. She has worked with parents, teachers, and children of all ages (including elementary, middle, and high school). She specializes in interventions and support for troubled teens. She has also assisted parents in advocating for their children within the school setting, especially in regards to ensuring services for students with disabilities.

Name : Tania Kopplin
City : Rowlett
State : Texas
Zip : 75089
Country : United States
Email : tkopplin@sbcglobal.net

Curriculum : Parenting the Love and Logic Way

Tania is a Christian Day school teacher in Dallas, Texas. In the last 22 years, she has taught full time 12 years, grades K-4, substitute taught a variety of PreK-8th grades. Tania is a mother of 3, ages 17, 15, and 12. Tania believes that parents should always be educating themselves as their children grow and change. Networking with other parents and reading parenting books is how she got started in parenting training. Tania has taken several workshops with Love and Logic, including a 3 day seminar in Colorado with Jim and Charles Fay. Tania teaches parenting classes through Calvary Lutheran School, Dallas, and other locations.

Curriculum : Parenting the Love and Logic Way

I am a true Texan. I live on a ranch near Medina Lake. I drive over an hour each day to teach in a wonderful private school in San Antonio. I have been teaching in the public and private schools for 41 years. I began learning about Love and Logic over 15 years ago and it changed my life. Since I started using Love and Logic teaching is fun again. My students love me and love coming to school every day. It has been said that " If you love your job you will never work a day in your life" . If you use love and logic this quote is so very true.

Curriculum : Parenting the Love and Logic Way

I have worked in the education system for 18 years, which is where I was first introduced to Love and Logic techniques. Early in my teaching years, I attended several workshops and was so excited I came home and ordered books and CD's so I could delve more into it. I taught Deaf education from 3 year old's to High School students. After my 2nd child was born I moved to teach ASL at the High School level. If you have worked with High schooler's you know you cannot start a power struggle in the classroom because either way you are going to lose. You win by not letting it become a power struggle. Having Love and Logic in my back pocket was a huge benefit. After about 5 years I moved into the position of High School Counselor at the school I had been teaching at. Working with kids has always been my passion. This past year I left the school setting to have the opportunity to work more directly with children, teens, and parents in the private practice setting. Having the opportunity to facilitate this program and share it with other parents is so exciting because I know it helps. As I prepared for my first class it also helped remind me of some of the techniques I have forgotten over the years (over that time my family grew by 2 more) and immediately put them back into action. With 3 boys it is easy to let yourself get sucked into those power struggles. By implementing the Love and Logic techniques I get to enjoy being around my children even more.
