## Child Labour Declaration

Over half of the Coloured Micas we stock are manufactured in the EU by our trusted supplier. The remaining Coloured Micas come directly from various global manufacturers who are all experts in their fields. None use child labour and all strive hard to meet fair employee standards in all their manufacturing facilities.

Our supplier does not purchase any products from trading companies or middle exporters, so we are very sure to know the exact origin of everything we stock.

They also do not stock and have never stocked any products from India due to the extensive child labour problems over there.

Our supplier operates on a zero tolerance level towards the exploitation of children, animals or people.

We trust this information is helpful. Our suppliers commitment is to fully comply with all domestic and international regulatory requirements and to provide you, our valued customers, with the safest ethically sourced and highest quality pigments possible.

If we can be of further assistance, please do not hesitate to contact us.
