DESCRIPTION

This 39 in. (100 cm) commercial grade aluminum mounting channel is engineered specifically for mounting EL-12VM LED Mini Flex Neon Lights. It provides a rigid housing that can be surface or recessed mounted on almost any type of application. It can be custom cut to the length desired with almost any metal saw. The Mini Flex Neon light will fit tightly with no need for additional fasteners or adhesive to hold it in the mounting channel.

APPLICATIONS

- For use with **EL-12VM** LED Mini Flex Neon Lights.

INSTALLATION

To install the channel. Drill holes in the back of the channel and secure it by using screws, then push the LED Mini Flex Neon into the mounting channel.
