DESCRIPTION

The flexibility and versatility of the 12V LED Mini Flex Neon will allow it to easily be mounted around edges and bend around corners with a solid lighting effect. Available with a wide variety of CCTs and color options and it is waterproof when installed with our end caps.

The 12V DC Mini Flex Neon can also be mounted into an aluminum profile channel or silicone into place. Mounting on the side of a display or cabinet can be done with regular 3M Double-faced Tape or Carpet Tape making this a simple onsite installation.
