DESCRIPTION

The ST-17AB is the BEST VALUE for solid brass bullet light around. Quality, price, and availability make this light an all-around winner! The ST-17AB allows the consumer to utilize an MR16 light bulb, which allows flexibility to the max.

With various wattages, color temperatures and beam spreads, you can light a variety of different features in your yard with a single fixture. The fixture is also LED compatible, allowing a brilliant mix between a quality brass fixture and an energy efficient lamp. This directional light is made of thick solid cast brass construction. Solid brass fixtures have much longer lifespans than aluminum fixtures.

KEY FEATURES

- Rugged housing built to last
- Easy Installation
- Antique Broze Finish
- Compatible with 12V DC LED MR16 Bulbs
- Heat resistant glass
- Pre-wired

APPLICATIONS

- Outdoor Landscape Lighting
