DESCRIPTION

The LED Linear Dimmable Strip Light utilizes high quality LED chips that allow high brightness and long lifespan. It uses 80% led energy in comparison to traditional light bulbs.

The lampshade adopts materials that are durable and resistant to ultraviolet light. It will not yellow after long-term use. It gets rid of glare, emits soft light, and is non-dazzling.

It has an input voltage of 100-277V AC and it is instant-on which means that the LED fixture will reach 100% brightness when it is turned on.
