**DESCRIPTION**

The solid brass fixtures are the BEST VALUE for the quality path and area lights around. Durability, price, and availability make this light an all-around winner! The EL-27AB is LED compatible, allowing a brilliant mix between a quality brass fixture and an energy-efficient lamp. The EL-27AB has the largest shade of the path and area lights. This area light is made of thick solid cast brass construction. Solid brass fixtures have much longer lifespans than aluminum fixtures. This great quality light includes a 1/2" PVC spike for easy mounting. Swap out the traditional Bi-Pin lamp bulb for an equivalent LED version and you will have a great light source that is extremely energy efficient and will last many years. The lens has a clear glass that covers over the lamp providing sprinkler water protection.

**KEY FEATURES**

- Rugged housing built to last
- Easy Installation
- Antique Broze Finish
- Clear glass cover over lamp providing sprinkler water protection
- Pre-wired

**APPLICATIONS**

- Path Lighting, Step Lighting, and Area Lighting
