DESCRIPTION

LED In-Ground Aluminum Channel can protect and provide superior light diffusion for indoor or outdoor LED tape light applications. The channel provides a rigid, dustproof housing that can be recessed or surface mounted and be custom cut to suit any application.

KEY FEATURES

- High-quality diffuser, placing/removing from the front on click
- Indoor and outdoor use
- Made from anodizing aluminum, UV resistant.
- Rigid and dustproof housing can be recessed or surface mounted.
- Includes aluminum channel, opal white lens, 2 end caps.
- The Channel lens protects LED strip light from the environment and creates diffused lighting effects. Easy to install, simply clip the diffuser lens into the aluminum channel.
- LED Aluminum Mounting Channels do not qualify for the Free Standard Shipping offer. Additional shipping charges will be billed separately.
- Aluminum channels are not returnable due to the packaging and shipping costs.

APPLICATIONS

- Driveways and Exterior Application
- Stores shelf LED lighting
- Retail Store Display Lighting
- Heat sink and physical protection to the LEDs
- Independent Linear LED Lamp
