### DESCRIPTION

The LED CCT Flex Grid Light Sheet is flexible and can be used where any continuous light source is needed. It is field-cuttable vertically or horizontally at its cut marking, in unique shapes, or around obstructions.

With a profile of less than 1/8", these sleek LED CCT Flex Grid Light Sheets allow installers to utilize them in areas less than 1/2" deep and go where traditional fluorescents and other bulky light sources cannot.

Powers easily by daisy-chaining with integral push-in connectors or power from any square at the soldering points provided. 3M-construction adhesive adheres to most surfaces (flat or curved). Available in 2700K-6500K CCT Tunable.

### KEY FEATURES

- Commercial-grade flexible light sheet creates a uniform and linear illumination
- Easy installation in any minimal-size application with no heat sink needed.
- Field-cuttable vertically or horizontally
- Versatile mounting options with 3M adhesive backing
- Can be installed in either exposed or fully enclosed spaces
- Specially rated for installation in the storage area of a clothes closet.
