DESCRIPTION

The LED 24V DC RGBWW (3000K) Color Changing Flex Neon Light is a unique and commercial-grade lighting strip. It is ultra-flexible which allows you to achieve the creative design of glass tube neon with all the new advanced LED lighting technology.

With color-changing flex neon, you can create colorful lighting environments that you probably will not find anywhere else. Traditional glass tube neon lights are expensive and fragile and can not change colors.

KEY FEATURES

- Available to purchase in 10 meters (393.7 in) reels.
- Each reel includes 1 end cap and 1 power feed attached.
- Long life (up to 100,000 hours!) and trouble-free operation
- Energy-efficient; most signs use only 14.4 watts per meter
- High intensity LED and continuously line to attract attention
- Safe low heat operation; cool to the touch
- High visibility, even in direct other light
- Fully enclosed electronics for wet environments
- Rated IP67 for Outdoor Wet Environments
