DESCRIPTION

Step 1 Dezigns LED Linear Slim High Bay Lights delivers unmatched long-lasting performance from glare prevention, superior light quality with great energy efficiency. Fitted in a distinct low profile and clean finish, the LED Linear Slim High Bay Lights are long-lasting and durable.

It is ideal for aisles or higher ceilings applications. Placing the LED Linear High Bay fixtures parallel to aisles is more efficient than a perpendicular alignment with even lighting distribution. This design also makes it easier to control with motion sensors and switches with reserved space for motion sensor add-on, sold separately.

Wider lighting distribution fixtures are better for open area applications. It is available in 110 or 165 Watt options with diffuser included. Please check out the specifications, or contact our product specialists for help picking the right fixture for your application.
