LIGHTING INNOVATION

EL-LUM-RGB-IP65 LED RGB LumaStrip Module Light 19 in

SPECIFICATION SHEET

DESCRIPTION

The 19 inches long 24V DC RGB LED LumaStrip Light is Rated IP65 for Wet or Dry environments and designed to provide superior-quality lighting outputs with vibrant colors. They are great for large retail displays and graphic lightboxes. We have designed the RGB LED LumaStrip Light that give you the best performance and versatility.

Color Changing RGB LED Lumastrip Lights are energy efficient, frameless, and low profile. Each RGB Lumastrip Lights can be linked together with supplied connectors for continuous run. By simply placing these fixtures on the interior of any extrusion, Lumastrip will effectively showcase your graphic or product evenly illuminating the entire display.

Each of LED RGB LumaStrip Light Modules utilizes a diffuser lens around the LED chipset to distribute colorful lights evenly at a beam angle up to 60°. This allows it to illuminate shallow light boxes with virtually no hot spots.
