DANSONS PL350/PL350H COMPACT PATIENT LIFTS

**DM-PL350
(Electric)**

**DM-PL350H
(Hydraulic)**

- **EFFICIENT** and easy to operate
- **ELECTRIC** or **HYDRAULIC POWERED** raising and lowering
- **350LB CAPACITY** for a broader range of patients
- **MAINTENANCE FREE** dual-wheel casters in front and rear
- **EASY BASE OPENING** with foot pedals
- **COMPATIBLE** 4-pt spreader bar

The Danson PL350 is a compact and lightweight patient lift that revolutionizes safe and comfortable patient transfers. Its small footprint and light frame, along with low-profile casters, allow for easy maneuverability in tight spaces and on uneven surfaces. Its full-body design offers improved comfort and reduces the risk of falls, making it an ideal solution for home care and nursing homes.

DANSONS SA350/SA350H COMPACT STAND ASSISTS

**DM-SA350
(Electric)**

**DM-SA350H
(Hydraulic)**

- **EFFICIENT** and easy to operate
- **ELECTRIC** or **HYDRAULIC POWERED** raising and lowering
- **350LB CAPACITY** for a broader range of patients
- **MAINTENANCE FREE** dual-wheel casters in front and rear
- **EASY BASE OPENING** with foot pedals
- **COMPATIBLE** 4-pt spreader bar
- **SHIPS GROUND** and avoids the hassle of freight

The Danson SA350 Compact Stand Assist facilitates safe and efficient patient transfers up to 350lbs with ease. Its compact design enables easy maneuverability in tight spaces without compromising its stability. Adjustable cushioned knee pads ensure patient comfort and support throughout the transfer process. Ideal for patients with limited lower extremity strength, the lift's lightweight yet highly capable design addresses a spectrum of patient needs, making it an essential tool for caregivers.
