

MOBILIFT HEIGHT AND COLOR OPTIONS

Many customers want their Mobilift to look as discreet as possible. Sometimes this is to blend in with the architectural theme of their location and sometimes it is to avoid drawing attention to the individual who needs assistance.

Adaptive Engineering Inc. offers two upgrades to help your Mobilift fit your aesthetic requirements: different height options and your choice of powder coated colors. This brochure will guide you as to the choices available. Please contact your lifts representative to find out more or to check on current prices for powder coating.

Available Mobilift Heights

(Middle unit shown in Furniture White powder coating; side units shown in standard bare aluminum finish)

Model	Lift Height	Stored Footprint
Standard	60" (1.5m)	37.5 x 72" (0.96 x 1.83m)
Extended Reach	72" (1.83m)	46.5 x 72" (1.18 x 1.83m)
Short (not exactly as shown)	48" (1.22m)	37.5 x 72" (0.96 x 1.83m)

Examples of Mobilifts in Specialty Colors

Most users choose neutral colors, but some people want their Mobilift to stand out!
