xSiCute IP65 rated moulded plastic external connection box suitable for use as a breakout box or a splice enclosure. Supplied with 3 x 12 position splice trays (36 splices) and able to accept 16 x LC duplex or 16 x SC simplex couplers (couplers not supplied with termination box). Suitable for direct burial and can also be mounted on walls, or poles. The lid is hinged and opens to allow easy access and re-entry to the splicing and patching areas. Hinged Splicing Trays allow access to other trays and open to enable unencumbered access to installed fibres.

With standard cable sheath strength retention at cable entry points, consisting of 2 x ports with rubber seals, 2 x cable gland ports with 12mm max OD and 16 x drop cable ports to accept 1 x cable with a diameter of 3mm or 3 x 2mm. UV resistant weather-proof providing protection from dust and water ingress.
