

The freestanding Aquafire allows for easy retrofits of existing fireplaces.

- Beautiful natural orange flames
- Flame height adjustment
- Flame speed adjustment
- LED intensity adjustment
- UVC air and water disinfection
- Satin Black (RAL 9005) finish
- Comes with 2 black balls and 2 gold balls
- Multi-function remote
- Width: 22.56 inches
- Depth: 11.65 inches
- Height: 9.45 inches
- Balls Height: 3.15 inches
- Tank capacity: 0.42 gallons (up 16 hours)
- Power consumption: 35 W
- Weight: 30.4 pounds

## Internal UV-C Lamps kill 99.99% of Mold, Bacteria, Germs, Viruses in water tank and vapor chamber.

**AQUAFIRE®** water vapor fireplaces have integrated germicidal UV-C Lamps that disinfect the air flowing thru the unit, water in the tank, and the water vapor generated (patents pending world-wide). Ultraviolet UV-C radiation deactivates and kills viruses, bacteria, spores, micro-organisms, and pathogens while the unit is in operation. Even when the fireplace is not being used, the UV lights will turn on once each day to keep the water sanitized. The UV-C treatment process is a proven and reliable sanitation technology. The ultraviolet rays are confined to the internal water tanks and air chambers and therefore are not visible to the naked eye. **AQUAFIRE®** water vapor fireplaces are the only water vapor fireplace that are free of harboring mold, bacteria, and viruses.
