Weather and Information Display

Dark tint glass for enhanced flame appearance

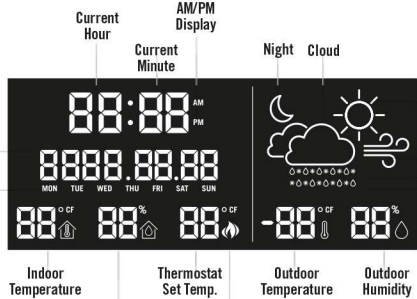

Dual 10W USB charging port for faster charging

"Hey Google, Set Stylus to 25°C"

"Hey Google, Set the orange flame of the Stylus to 50%"

"Alexa, Turn on fireplace"

"Alexa, Set Stylus Ember colour to Red"

Auto-Off Timer so the fireplace safely shuts off if it has been running for 16 hours or room has reached 30C/86F

Infinite ember bed color options powered by Napoleon Home App integration for unparalleled customization

WEATHER AND INFORMATION DISPLAY

The LED weather and information display can display time, date, heater status and indoor/ outdoor weather conditions. The display automatically updates the information of local conditions through the device when connected to Wi-Fi. Control the brightness of the display through the Napoleon Home App.

Power: Turn the fireplace on and off

Temperature: Like a thermostat, set your preferred temperature and the heat settings will adjust to keep your room at this desired level

Choose from your saved favourites: Save your current settings by adding it to your Favorites. Select a scene name and a photo from your camera roll to add a personal touch

Live Updates: See the settings of the fireplace change in real time on the App home screen, whether or not you're in the same room

Favorites: Choose from your saved favorites to set the mood for every occasion or choose from curated suggested selections

Heat Control: Set the heat option to Off, Fan only, Low, High or Thermostat.

Timer: Set a timer from 30m to 8hr

Flame: Control the flame speed and color

Ember bed: Control the ember bed brightness, turn the pulse setting on/off and select the color choosing from unlimited options, including Autocycle

Lights: Control the brightness of the Weather Display and bulb warmth of the side light
