	<b>WEIGHT</b> 22 lbs.	
	<b>PACKED DIMENSIONS</b> (Tent Bag) 14" x 28" (Pole Bag) 7" x 36"	

## SPRINGBAR TENT SET-UP GUIDE

### 1. Stake it Down.

Select a level site and keep the tent as 'square' as possible. Springbar Tents **MUST BE SECURELY STAKED DOWN** to function.

Scan this QR code to watch our Springbar set-up video.

### 2. Insert Ridge Poles and Spring Bars.

Use 2 ridge poles, 1 steel sleeve, and 4 spring bars.

### 3. Tension the Roof Panel.

Place the ridge poles end to end and press down to tension the roof. Slide the steel sleeve over the connection point to secure the ridge.

Tip: The tension screw may be adjusted to achieve more or less tension as needed.

### 4. Install One Upright Pole.

Tip: Assemble the upright pole on the shortest setting. After installing, lengthen the pole until the walls are taut—but not too tight.

### 5. Install Second Upright Pole.

Tip: Follow the same procedure outlined in Step 4.

### 6. Enjoy your Compact.

### MAINTENANCE TIPS

**STORE IT DRY, STORE IT CLEAN!**  
That goes for the poles too.

With proper care, a Springbar® Tent is built to last a lifetime.

**SATISFACTION GUARANTEE**  
Love your tent or we'll make it right.  
We've got you covered.

### REPAIRS

We work hard to keep tents in the great outdoors and out of landfills. Our Salt Lake City Sew Shop can repair or replace just about anything. It's how we do sustainability.

Contact us to schedule a repair.
