

FAMILY CAMPER

The name says it all—for the adventurous family there’s no substitute when it comes to easy setup, livable space, and reliability in harsh weather. That said, while the 10’ x 14’ footprint will easily sleep a family of four to six, it’s practically a cabin for two with space for a full bed, table, and chairs.

S P E C S	SIZE 10’ x 14’ x 6.5’	MATERIAL Sunforger® marine-finish boat shrunk army duck canvas. 100% cotton, double-fill construction. 	WEIGHT 77 lbs.	
	PACKED DIMENSIONS (Tent Bag) 26” x 32” (Pole Bag) 8” x 62”	

SPRINGBAR TENT SET-UP GUIDE

1. Stake it Down.

Select a level site and keep the tent as ‘square’ as possible. Springbar Tents **MUST BE SECURELY STAKED DOWN** to function.

Scan this QR code to watch our Springbar set-up video.

2. Insert Ridge Poles and Spring Bars.

Use 2 ridge poles, 1 steel sleeve, and 4 spring bars.

3. Tension the Roof Panel.

Place the ridge poles end to end and press down to tension the roof. Slide the steel sleeve over the connection point to secure the ridge.

Tip: The tension screw may be adjusted to achieve more or less tension as needed.

4. Install One Upright Pole.

Tip: Assemble the upright pole on the shortest setting. After installing, lengthen the pole until the walls are taut—but not too tight.

5. Install Second Upright Pole.

Tip: Follow the same procedure outlined in Step 4.

6. Enjoy your Family Camper.

MAINTENANCE TIPS

STORE IT DRY, STORE IT CLEAN!
That goes for the poles too.

With proper care, a Springbar® Tent is built to last a lifetime.

SATISFACTION GUARANTEE
Love your tent or we’ll make it right.
We’ve got you covered.

REPAIRS

We work hard to keep tents in the great outdoors and out of landfills. Our Salt lake City Sew Shop can repair or replace just about anything. It’s how we do sustainability.

Contact us to schedule a repair.
