- 1 Die

Hey girl hey. Welcome to your guide for the night. The first thing we want to stress is that this is a JUDGEMENT-FREE zone. We're all a little freaky, so let your guard down and roll your sleeves up because y'all are in for a wild night...now grab a seat at the table and lean the fuck in because it's time to get messy...

Pregame:

Shuffle each of the 5 decks separately and place them in the center within everyone's reach.

Gameplay:

Whoever has most Instagram® followers goes first, rolling the die. Each side of the die shows a color that matches the category of cards from the 5 decks. Whichever side of the die lands face-up, take the top card from that deck (i.e. if the die lands on the pink side, take the top card from the pink "Truth or Dare" deck).

The player who picks up the card must read it out loud to the group. Then she must immediately perform whatever command or action is described on the card. Some commands involve just that individual player, some require the whole group's participation (see card breakdown for more details).

The player to her left then rolls the die and play continues as such.

PLAYER'S CHOICE: if the die lands on **black**, the player can choose a card from whichever category she wants.

Point System:

In this game, cards equal points. Whoever has the most cards at the end wins. Easy. Breezy. Beautiful.

Card Breakdown:

Truth or Dare?

TRUTH - Answer truthfully and keep the card. If the question is too savage for you to answer, put the card at the bottom of the stack.

DARE - Perform the dare and keep the card. If you're just getting warmed up or are embarrassed for some reason, put the card at the bottom of the stack.

Never Have I Ever...

If you **HAVE** done the thing, keep the card. If you haven't, put it at the bottom of the stack.

Rapid Fire

Quickly name something within the category. The person to your left then names something else, and so on. The first player to hesitate (more than 10 seconds), repeat an answer, or otherwise fuck up is out. Keep playing until one person is left. That person keeps the card.

Best of the Best

GIVE the card to whichever player it best describes.

Example: If the card reads, "Who is the worst cook?" give the card to the player who can't boil a pot of water without burning the house down.

Most Likely To...

GIVE the card to whichever player is most likely to do that thing.

Example: If the card is, "MLT cut her own bangs" and Isabel is definitely the most likely to cut her own bangs, give Isabel the card and then have an intervention because that is never okay.

How To Win:

Keep playing until your Uber is outside or until someone collects 25 cards. At the end of the game, whoever has the **most cards is the winner** and should be treated like an absolute queen for the remainder of the night. Slay, girl.
