Blupeak offers connectivity & productivity solutions for your home/office requirements, commercial solutions for your business IT needs as well as mobile solutions to keep you connected while you are on the road.

## ACD01 – Blupeak Automatic Sensor Car Dock

The Automatic car mobile phone dock features a phone sensor to automatically close when the mobile phone is detected in the cradle. Locking your phone in snugly with a bottom support brackets to make sure your phone never comes loose.

The dock features a capacitive touch sensor on the top of the unit to easy release the phone with locking arms electronically releasing the phone, so you can get on with your day without the hassles of clips, springs and levers just to insert and remove your phone.

An internal 250mAh battery allows the unit to open and close without any cables attached for several hundred operations. When the battery runs out, simply attach the included cable to a USB car charger to recharge the battery.

- Ideal for the iPhone Xs, Xs Max, Xr, X, 8, 8 Plus, Samsung Galaxy S9, S9+, S8, S8+ & more
- Designed to provide easy one-handed mounting and release
- 250mAh built-in battery for cableless operation without power
- Supports mounting on window, dash or vent
- Lower bracket helps support your phone in case of a bumpy ride and when releasing the phone to avoid accidental drops
- Wide holding brackets for even the largest of phones
