APPLICATION
Decora Smart Wi-Fi® 2nd Generation devices connect to a Wi-Fi network and the My Leviton app to provide wireless lighting control for the whole home. Leviton's Wi-Fi 2nd Generation Dimmer makes it easier than ever to add smart lighting control possibilities to any room or home. Use your voice with Hey Google, Amazon Alexa™ or Apple Siri® to dim and brighten connected lighting. Use the My Leviton app on a smartphone, tablet or computer to control lighting or adjust schedules. Decora Smart dimmers feature full-range dimming performance and custom settings for preset light levels, fade rates, and bulb types.

The Wi-Fi 2nd Gen Dimmer offers wire leads, reduced product depth, and a streamlined app setup flow for easier installation. The dimmer features a rocker switch with intuitive ON/OFF and dim/bright control easily adjusted by the dim/bright bar.

The Decora Smart Wi-Fi Dimmer can be combined with other Decora Smart Wi-Fi devices to create a Whole Home experience with scheduling, lighting scenes, and app control from anywhere. Go beyond a single device by adding switches, fan speed controllers, outlets, and more to control all lights, ceiling fans, electronics and small appliances. Add the Decora Smart Wi-Fi Voice Dimmer for built-in voice control or the 4-Button Controller to quickly adjust a room full of Wi-Fi enabled dimmers, switches and more with the touch of a button.

Vanishing LEDs, color change kits and wallplates ensure the dimmer matches the aesthetic of other smart and non-smart Decora® devices in the home.

WIRED AND WIRELESS 3-WAY/MULTI-LOCATION CONTROL
Whether new construction or retrofit, a solution is available for 3-way and multi-way applications. Wired Dimmer and Switch Companions offer additional in-wall control locations with matching LEDs and communication when a traditional traveler is present. For retrofits, Decora Smart Wi-Fi 2nd Gen devices are compatible with Decora Smart Anywhere Companions, which are easily installed with no wiring required. These wire-free 3-way and multi-location devices look like a traditional dimmer and switch, install quickly, and have a 5 year battery life.

WORKS WITH MY LEVITON
The My Leviton app connects Leviton Decora Smart Wi-Fi devices to the cloud to provide app control, device customization, scheduling, and connection to My Leviton partners including voice assistants. Schedule lights to adjust at specific times or based on sunrise/sunset, adjust custom settings like fade rate and bulb type, and create lighting scenes to activate multiple devices at once.

Optionally use the auto-shutoff feature to act as a countdown timer in closets, hallways and bathrooms. Utilize the Away modes to enact vacation mode for randomized schedules of selected devices, to provide a lived-in appearance when away from home.

NEW! WORKS WITH APPLE HOMEKIT AND SIRI
Decora Smart Wi-Fi 2nd Generation devices can be added to an Apple HomeKit network and controlled with the native Apple Home app on your iOS device, providing compatibility with Siri for voice control.

AMAZON ALEXA VOICE CONTROL
Decora Smart Wi-Fi 2nd Gen devices work with Amazon Alexa. Use your voice to control connected lighting from compatible Alexa built-in devices such as an Amazon Echo, Echo Show, the Alexa app, or even the Decora Smart Voice Dimmer: "Alexa, turn off my living room lights".

GOOGLE ASSISTANT™ VOICE CONTROL
Decora Smart Wi-Fi 2nd Gen devices also work with Hey Google, allowing you to control connected lighting with Google Assistant or from the Google Home app! "Hey Google, turn [My Leviton device name] On".
WORKS WITH IFTTT (IF THIS THEN THAT)
Use the free IFTTT service to connect your My Leviton devices with other Internet Of Things (IoT) enabled devices & services to create a smarter home automation experience.

600W Dimmer (2nd Gen), Wi-Fi Certified

WORKS WITH SCHLAGE

Use the My Leviton app to connect to your Schlage Encode™ Smart Wi-Fi Deadbolt and trigger lighting scenes based on lock activity. Make certain you never walk into a dark home when you arrive and make sure select lights are turned off when leaving.

FEATURES AND BENEFITS

- Control your lights from anywhere using the free My Leviton app for iOS and Android, no hub required
- Simplify control of your home – schedule lights and connected loads to dim/brighten or turn ON/OFF at specific times or based on sunrise/sunset, easily group your smart devices into rooms, and create scenes to activate multiple lights at once
- Works with Hey Google, Amazon Alexa or Apple Siri to use your voice to control connected bulbs and fixtures
- Connects to Wi-Fi; No hub required
- Double press the top rocker to turn ON at max brightness
- Ease of installation with a product depth of 1.3" and wire leads
- Vanishing LEDs and 6 color choices ensure a perfect match with other Decora devices (see ordering information)
- Full Range Dimming – Best-in-class dimming performance with custom settings in the My Leviton app for preset lighting levels, fade rates, bulb types and more
- Off Means Off – Low-wattage LED bulbs always turn off
- Pre-set schedules live inside each device, so your schedules run even during a temporary internet outage
- Using My Leviton, control up to 99 devices, 50 rooms, 50 activities, and 50 schedules per residence and up to 20 residences per account
- Single-pole, 3-way or multi-way control – with the wired DD00R Dimmer Companion or a wireless DAWDC Anywhere Dimmer Companion. The DD0SR Switch Companion or DAWSC Anywhere Switch Companion can be used for ON/OFF control
