

Enjoy the benefits of extended protection

What is a Service Plan?

It is the most economical way to extend the terms of your product's manufacturer's parts and labor warranty.

Why choose Service Protection?

Most Manufacturer-Limited Warranties leave our customers with no protection against the rising cost of repairs after the first year of ownership.

Why should I buy a Service Plan?

Even the best products can eventually malfunction, and most minor repairs can cost hundreds of dollars. This Plan prevents the hassle of unexpected repair bills.

How do I obtain service?

Obtaining service is simple, call our toll-free number and you will be notified of the nearest authorized service center for your product.

New Leaf
SERVICE CONTRACTS
A whole new approach

Congratulations
ON YOUR NEW SERVICE PLAN!

PLANTING A PARTNERSHIP

New Leaf is proud to announce our partnership with Plant-It-2020 - a worldwide charity dedicated to planting trees to renew our global resources. For every 10 contracts New Leaf sells, one tree will be planted. This effort, although simple in nature, is critical to help making this world more green.
