### **Our Packaging**

All of our packaging is 100% biodegradable and widely recyclable. If at all possible we'd encourage you to recycle before composting as even paper takes 5 months to biodegrade in the right conditions.

The FSC certified cardboard box is 100% recyclable and made from sustainable sources. The custom tape, used to seal the box is made from paper, ink and adhesive. It is safe to recycle with the box. The FSC certified wood wool used to protect your order is 100% biodegradable and made from sustainable sources. The best place to put this is in your compost or garden waste recycling facilities.
